

2018 BlueCross Preventive Drug List

If your health plan includes the BlueCross Preventive Drug List option, you just pay a copay or coinsurance for preventive care medications instead of having to meet your plan’s deductible upfront. This enhanced benefit makes it easier for you to buy the medications you and your family need to stay healthy today – and tomorrow.

Medications on the BlueCross Preventive Drug List help prevent and manage several health concerns. Following your doctor’s treatment plan, including taking prescribed medications as directed, can help you live a healthier life today, and avoid more serious problems in the future.

This list contains some of the most commonly prescribed preventive care drugs and is not all-inclusive. This list does not guarantee coverage for preventive care drugs that are not listed.
