

FirstFleet and HearUSA Team Up for Better Hearing

Good hearing is essential to our quality of life; a vital link that helps us maintain good relationships at home, at work, and with friends. Do you know that even a mild loss of hearing can interfere with the quality of our lives?

Here is the good news - today's hearing aids are smarter, smaller, more comfortable, and more effective than ever before. Your employer cares about you and your family, and has partnered with HearUSA to make sure that help is available when you need it, while you are enrolled in the employee medical plan. Thanks to FirstFleet and HearUSA, you can save hundreds of dollars on hearing care products.

Here's how your hearing benefit works:

- FirstFleet employees and dependents **receive a \$500 allowance** toward the purchase of a hearing aid for each ear - that's a total allowance of \$1,000 every three years.
- Services are available **exclusively through the HearUSA Hearing Care Network**, the nation's most progressive hearing care provider.

HearUSA is the largest network of audiologists in the country. The Hearing Care Network promises quality, skill and value - important considerations when seeking professional hearing care.

Find out how millions of people are hearing better.

Experience better living...through better hearing.

Save hundreds of dollars through your employer group.

Call HearUSA today at 1-800-442-8231 and schedule your appointment.
